TENEX Computer Express

Dear Commodore Owner,

1989 represents our seventh year of service to computer owners around the world. Because of your support, we've expanded our facilities continuously since our inception. This year, we move into a brand new warehouse/office facility, which will give us more room for our huge inventory of Commodore products and also let our staff work efficiently so that we can maintain our low, discount prices. Our new building is almost twice as big as our old one, and will house our state-of-the-art computerized order processing system and our brand new telephone system (more lines and more friendly people to assist you in ordering!)

Thanks for your past support; we look forward to serving you in the future. And as always, if you have any comments or suggestions, please let us know. We want to be your computer company!

Roger

Mavis Beacon Teaches Typing Faster Than Any Other Program On The Market

MAVIS BEACON TEACHES TYPING. Forget the simple letter drills — when was the last time anyone typed "asdffdsa" at work? Using a combination of artificial intelligence and striking graphics, this program **teaches typing faster than any program on the market.**

Each lesson is tailored for work in the real world from a database of over 1,000 passages from history's greatest writings. For youngsters, Mavis offers jokes, riddles, rhymes, interesting facts and records from The Guiness Book of World Records.

Mavis "speaks" to her students in complete, conversational sentences as she analyzes typing errors and progress — with more than just "bleeps" when an incorrect key is hit. She even senses when the student is tired and suggests a break at the Indy Racer game!

Many other features are included in this outstanding typing tutor, such as: a metronome selection, Dvorak keyboard option, a resume writer, user-designed lessons, and suggestions for business teachers developing their own lessons.

The Ultimate Drawing Program

Inkwell Systems

"Professional quality graphics program . . . excellent line of light pens." "There is no question in my mind — you won't be disappointed." *— Commodore Magazine*

"The best drawing program around" *— Midnight Gazette Software*

FLEXIDRAW VERSION 5.5. This version of the ultimate drawing program has more features than ever. You can still use a light pen as your input tool (sold separately — see below), or you can use a mouse, joystick or Koala pad. Whether you are doing simple free-hand sketches or complex CAD-type drawings, Flexidraw has the power you need with its top quality hi-res graphic input and editing system. The master disk has the main drawing routines for use with the light pen, as well as sample drawing library, symbol templates and a music Synthesizer program. A programming mode lets you access the drawing routines from BASIC. The sprite editor/animator adds a great plus to FLEXIDRAW — there's no easier way to edit sprites than with a light pen. The most powerful feature is the ability to use a set of symbols (yours or ours) which can be moved to a second work screen and added to a drawing.

FLEXIDRAW is easy to use due to the sophisticated menu system which is similar to those of large computer drafting systems; maximum detail is possible. Free-hand drawing is very smooth because of an "averaging" function that filters out noise and jitter. From Inkwell Systems. Sug. Retail $34.95

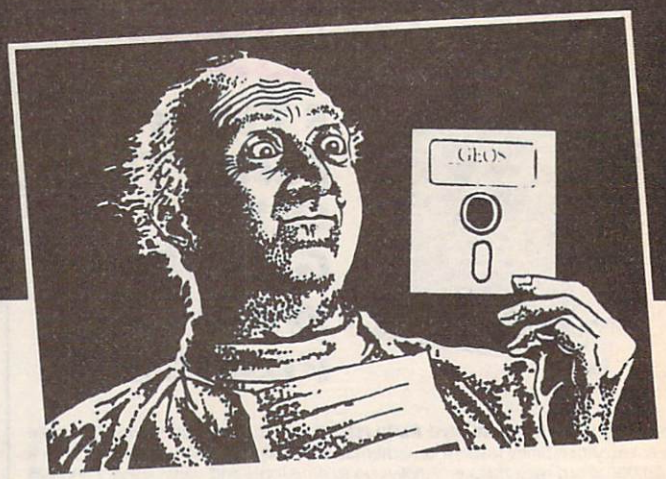
Give Your Commodore a Brain Transplant! Introducing GEOS 2.0

If you are one of the few Commodore 64 owners who doesn't own GEOS, now is your chance to enter a new world that combines ease of use with incredible power and capability.

If you already own GEOS, now is the time to invest in an upgrade that not only offers more speed, power, and versatility but includes more applications than ever before!



$39.95 Berkeley Softworks

GEOS 2.0. When GEOS was first introduced as a graphic operating system for the C-64, users were amazed at what the "lowly" machine could do. GEOS provided a Macintosh-like icon based interface, plus the graphics-oriented word processor, geoWrite, and art program, geoPaint. It was a feat nobody thought could be topped.

Well, somebody has topped the original GEOS, and it's none other than Berkeley themselves. Their new product, GEOS 2.0, not only is chock-full of new enhancements, but now includes **seven applications** plus five pop-up desk accessory features.

For starters, GEOS **deskTop** is your starting point in the world of GEOS. It is a powerful graphic interface that lets you manipulate files, run applications, etc. without having to learn confusing commands. The new deskTop supports up to two drives (including 1541, 1571, and 1581) and a 1750 or 1764 RAM Expansion, and permits even easier file handling. You can select multiple files, recover most recently deleted files, copy disks faster and more easily, sort files by size, type, date, or name, and more.

geoPaint is a full featured color graphics editor for creating high resolution, full page (up to 8½" x 11") graphic images, charts, and diagrams. With geoPaint, you can select from 16 colors, 14 graphic tools, 32 brush shapes, and 32 patterns; cut, copy, paste, invert, rotate, and reflect images; integrate text with graphics; stretch and scale graphic images; create overlay effects; zoom in for pixel editing; and even preview a full page prior to printing.

GEOS 2.0 now includes all the applications that were originally part of Writer's Workshop and had a retail price of $49.95. **geoWrite 2.1** is an enhanced version of Berkeley's full featured "what you see is what you get" word processor. Text appears on the screen exactly as it will print out. geoWrite 2.1 lets you format paragraphs individually; expand margins to a full eight inches; justify text (right, left, center, and full); mix text and graphics; preview a full page; create headers and footers; insert, delete, copy, and move text; search and replace; use decimal tabs; paginate, and more.

geoSpell is a complete spelling resource that now scans text 38 percent faster than older versions. You can actually view the dictionary while spell checking, quickly locate and correct misspelled words, and even create and maintain personal or specialized dictionaries of your own.

Text Grabber is a conversion utility that lets you import files from PaperClip, Easy Script, Speed Script, Word Writer, and other word processors. This way, you won't have to retype any of your current documents that you may want to use with GEOS. **geoMerge** is an adaptable mail merge program for generating personalized form letters and labels. **geoLaser** lets you use an Apple LaserWriter to produce near-typeset quality documents. **Print Drivers** is an application for producing professional-looking documents with multiple columns and/or logos, borders, and other graphics.

Desk Accessories include five pop-up utilities — calculator, note-pad, alarm clock, preference manager and photo and text albums and managers. The new version lets you cut and paste data from the calculator and notepad directly into applications, name each graphic or text item in an album, and select an item by name. The last application included is **diskTurbo,** which lets GEOS programs load five to seven times faster.

GEOS 2.0 now supports more than 70 popular printers in draft, near letter quality, and high resolution printing modes. Whether or not you own the original GEOS, you owe it to yourself to find out what a Commodore 64 can really do! Sug. Retail $59.95

Desktop Publishing Power for Commodore

SPECIAL OFFER

$32.95

GEOPUBLISH. When GEOS first arrived on the Commodore scene, people could not believe that a mere software package could so dramatically transform their computer.

geoPublish actually does things that some expensive Macintosh programs don't — for instance, you can "pour" your geoWrite document into column after column, page after page. The text will automatically flow around any graphics you have placed. geoPublish features an array of artistic tools to spark your creativity and make publishing easy — you can resize text, change fonts, and insert or delete graphics anywhere on the page. A scaling tool lets you shrink or enlarge your artwork. You can even place text over graphics (or vice-versa) if you want. For eye-grabbing headlines, geoPublish includes extra large "megafonts." One other key feature: geoPublish lets you integrate text and graphics from the entire GEOS family of programs, so you can create great looking documents that combine text, graphics, tables, charts, etc. Start making headlines today! Requires GEOS. Sug. Retail $49.95

True 3D Excitement!

X-SPECS 3D. Have you ever been disappointed by games that advertise 3D graphics only to find the graphics were flat and lifeless? With X-Specs 3D from Haitex, all that has changed. These special glasses just plug into your Amiga, and the results are breathtaking. Because each of your eyes is presented with a slightly different image, you'll see full depth, full color 3D.

Dozens of software developers, including many of the "big name" companies, are working on software to take advantage of this revolutionary technology. Imagine true 3D games where the graphics actually seem to pop out of the screen at you, or design programs that let you see your creations. You don't have to wait, though — each set of glasses comes with a group of sample 3D images, a program that lets you display any pair of IFF images in 3D format, and a fantastic 3D arcade game called Space Spuds.

The package includes an adapter that plugs into your second joystick port and accommodates up to two pair of X-Specs. If you thought the Amiga had great graphics, wait until you see what it can do in three dimensions!

OPTICKS. The most powerful ray-trace graphics program ever. Create breathtaking 3D scenes with the easy to follow menu. To create the illusion of reality, you can choose different lighting (global, distant, point, and spotlight), choose object surfaces that simulate the reflective properties of plastic, metal, and glass, and more. You can either display the scenes in conventional 2D or in 3D mode that is compatible with the Haitex X-Specs 3D. Opticks lets you import objects from VideoScape 3D or 3-Demon, display and save in IFF HAM mode, and more.

Video Photos For Your Amiga

"Digi-View sets new standards for graphics hardware"
— Infoworld

DIGI-VIEW 3.0. If you think pictures on a computer look somewhat "cartoonish" because of low resolution or limited color selection, you haven't seen what Digi-View can do. Digi-View is a video digitizer — it captures color images from a camera (usually a black and white camera) and turns them into digital information for display or saving to disk. These images don't have the chunky or jagged appearance you might expect, either; by taking advantage of the Amiga's remarkable capabilities, Digi-View can produce images that rival high quality broadcast video. Digi-View does this by capturing over 2.1 million colors, and then constructing the best possible image from the Amiga's 4096 color palette.

Digi-View displays pictures in any of the Amiga's resolutions, up to 760 x 480, overscan, and use Enhanced Hold and Modify mode for startling clarity. You'll need to have a black and white or color video camera. (Color images are produced by scanning the photo or object through the color filter wheel included with Digi-View.) Package includes digitizer hardware and Digi-View 3.0 software.

Sug. Retail $199.95

81725 Digitizer and Software **$133.95**

DIGI-PAINT. Used alone, Digi-Paint is an outstanding tool for creating high resolution pictures on your Amiga. If you have Digi-View and a video camera, you can use Digi-Paint to alter your Digi-View images — retouch them, change colors, combine multiple pictures, mix in artwork, and more.

Digi-paint lets you use all 4096 colors at once, not just 32, so pictures can be far more realistic. Special features include shading, tinting, blending, complete drawing tools, & more.

TENEX Turbo IBM Compatibles!

$995.00

Feature Packed AT Compatible

Shown with Optional Monitor

This show stopper is really something to be proud of! The TENEX Turbo 286 is fully compatible with IBM's AT, the current corporate choice for super performance at an affordable price. But where their's runs at only 6MHz, ours runs at a fast 10MHz. It comes complete with a full 640KB RAM (expandable to 1MB on motherboard), a lithium battery-powered clock/calendar (never enter time and date again), a 1.2 MB half-height floppy drive, a parallel printer port, an AT style keyboard, and Hercules compatible monochrome graphic adaptor. *Includes* hard disk controller! The full-sized metal AT style case comes with key lock, indicator lights, a full 200 watt power supply, and eight expansion slots (six are 16 bit and two are eight bit). Of course you get our full year warranty.

K74880 Turbo 286 System **$995.00**

Consider adding one of our convenient and productivity enhancing hard disk drives or a second floppy drive. You can add a 5.25" 360K, 3.5" 720 K, and/or 3.5" 1.44MB half-height floppy drives. Also available are color graphics displays of unparalleled quality. We recommend going with EGA of VGA for the 286 systems, and, as usual, we have a great selection at the best prices. Remember we install and configure all the products ordered with your system at no additional charge. All systems are tested for 24 hours to ensure trouble-free performance.

(Please include an additional $10.00 to our regular shipping charges.)

MICROSOFT MS-DOS 3.3 This is Microsoft's latest operating system that is compatible with both floppy and hard disks. So if you need DOS for your new Turbo, look no farther. Also included at no extra cost is GW-BASIC. Includes all documentation.

74297 MS-DOS 3.3 **$109.00**

MS-DOS 3.2. Includes all the key features of MS-DOS 3.3: hard disk management, 1.2MB, 720KB, and 360KB floppy disk drive management and much more. Also included at no extra cost is GW-BASIC. Includes full documentation. Quantities limited.

Fully Loaded

$595.00

Shown with Optional Monitor

Designed and built by TENEX, this is the most full-featured, best performing, and lowest priced IBM compatible computer you will find anywhere! Compare these features:

- 2.1 times faster than IBM's PC/XT!
- Full 640K RAM Installed on Motherboard!
- One 360K Double-Sided Double-Density Floppy Disk Drive!
- Parallel Printer Port!
- Serial Port for Modem or Serial Printer!
- Color Graphic Card for RGB Color Monitor! OR Monochrome Graphics Card for Monochrome Monitor!
- Real-Time Calendar Clock!
- Joystick and Lightpen Port!
- Controller for Second Disk Drive!
- Guaranteed Lotus 1-2-3 Compatibility!
- Terrific New IBM-AT Style Keyboard!
- FCC Certified and Legal BIOS!
- Sturdy Metal Frame with Speaker!
- **Full 1 Year Warranty Plus the TENEX Satisfaction Guarantee!**

For this breakthrough price, you have a complete system with **more** computing power than the IBM PC/XT! Take your system out of the box, plug it in, connect your monitor and printer . . . and off you go. Run Lotus 1-2-3, dBASE III, Wordstar, Flight Simulator, and the thousands of other PC software products. Full-size metal chassis gives you 8 expansion card slots **and** room and power cables for 4 half-height disk drives.

You choose the speed of calculation: standard 4.77 MHz or **8** MHz. Zoom through programs 2.1 times faster than the IBM PC/XT (Norton benchmark).

The detachable keyboard mirrors the famous IBM AT in looks, quality, and feel. Features 10 function keys, numeric keypad, extra large shift and return keys, and lighted indicators for scroll, caps, and number lock.

Your TENEX Turbo PC/XT will accept IBM compatible components, giving you flexibility in expanding your system and security in the event repair is needed. And remember your TENEX technical staff services what we sell!

No corners have been cut in producing this incredible system for this amazing price . . . we just used our same purchasing power and Ph.D. technical staff we use to bring you the other terrific products found in our catalogs. Note: an IBM compatible disk operating system (DOS) is required. Use your own or choose one listed on opposite page.

The Hard Disk Difference

With a hard disk system, gone will be the endless disk shuffles. Load and run your software in seconds without floppies. Save your data the same way. A must for the intensive computer user and sure to spoil the rest of us. You have (almost) instant and effortless access to 2,000K (20Meg) or more of storage. Compare this to 360K on the normal double-sided double-density floppy and you can see why hard disks are so popular.

With TENEX's incredibly low prices, you can enjoy the speed and convenience of the best hard disk systems! Remember, **free installation and testing when you order together with a TENEX IBM compatible computer.**

OKIDATA 180. Take a turn for the better with the OKIDATA 180, the one printer that's compatible with most computers! Here's a state-of-the-art general purpose printer with a **dual interface.** The Commodore serial interface allows you to easily connect to the Commodore C64 or C128, while the Centronics parallel interface connects to IBM and IBM compatible computers. Other computers which require a parallel interface (Apple II, II+, IIe, Atari ST, Commodore Amiga (FX Mode) and virtually all CP/M and MS-DOS computers) can also be used with OKIDATA 180.

The ergonomic "one touch" front panel is designed to give you instant access to frequently used features — mode selection, pitch selection, line feed, form feed. Text and graphics print out lightning quick at 180 cps in high speed draft mode and 120 cps in utility mode. Near-letter-quality text prints at a speedy 30 cps. Includes both friction feed (for letterhead, envelopes, etc.) and fixed tractor for standard width perforated edge.

Here's a printer for the long run. The printhead is rated for a life of 200 million characters. Ribbon life is 3 million characters. And the OKIDATA 180 is backed by a one year warranty. With great features, compatibility, speed and low price, the Okidata 180 means real value. Sug. Retail $329.00

NX-1000. This printer has been specifically designed for those who insist on quality, capability and reliability. The NX-1000 gives you the choice of pitches and print styles like: Courier, Sanserif, Orator-1 and Orator-2 type styles, in a choice of Pica, Elite, Condensed Pica and Condensed Elite. Italic is available in all print modes. Get **near-letter-quality** at 36 cps, and high-speed draft quality at a blazing 144 cps. With the aid of the new paper parking function you can now use the single sheet feeder without removing the tractor feed. "Push" style tractor reduces paper waste (you don't have to advance to the next page to remove your work.) The operator panel has been designed for easier use and enables soft-touch selection. The control panel also features LED indicator lights for instant confirmation of power, type styles, print pitches, and on-line status. Extra features like enlarged and proportional printing are also included on the NX-1000, a printer that easily out-distances all other printers in its class. Sug. Retail $289.00

Enter The Exciting World Of Telecomputing!

One of the most popular uses of home computers is to "talk" to other computers and computer users. The diversity of on-line services is staggering — from the latest news to airline schedules, from stock prices to interactive adventure games, from electronic mail to patent searches — all you need is your computer, a modem, terminal software, and a phone line. In addition to the national on-line databases like the Source, CompuServe, Dow Jones, and others, there are hundreds or even thousands of local "bulletin boards" run by user groups or individual enthusiasts. Telecomputing is so much fun and offers such a variety of activities that for many users it is the principal use of their home computer.

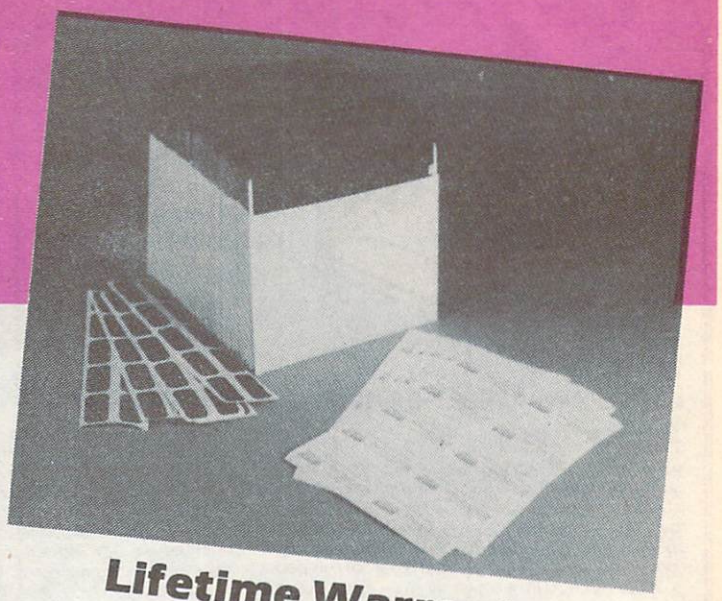
The microPal 39¢ Diskette



Lifetime Warranty!

MicroPal Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial mean you are sure you get your money's worth!

Here's What You Get
Diskettes are packaged in boxes of 50. Each box includes diskettes in sleeves, labels and write-protect tabs. All diskettes have hub reinforcement ring and write-protect notch.

Certified Quality
MicroPal Diskettes are first quality, prime diskettes (no seconds). Each one is individually certified to be 100 percent error free at levels equal to or above ANSI, ECMA and ISO standards.

Lifetime Warranty Plus Risk Free Trial!
We offer a double guarantee of satisfaction:
1) All diskettes are backed by a lifetime warranty. If you ever have a problem, we'll replace the diskette.
2) To let you discover what a great value these diskettes really are we'll let you try them risk free. Buy a box. If within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

Part No.	Description	Box of 50
32391	5¼" Single-Sided, Double-Density Diskettes	**$19.50 (39¢ each)**
32403	5¼" Double-Sided, Double-Density Diskettes	**$24.50 (49¢ each)**

PLEASE NOTE: Single-sided disks are for use in single-sided drives like the 1541. **Double-sided** disks are for use in double-sided drives like the 1571 (in some modes) or IBM compatible drives. Single-sided disks and double-sided disks look absolutely identical; the only difference is that on the latter the second side is tested and certified error free. To access both sides of a disk when using a single-sided drive, you must add a second notch and physically turn the disk over. See Disk Doubler on page 50.

Cartridge Port Extender Cable

CARTRIDGE PORT EXTENDER. Are you cramped for space behind your computer? Is it hard to reach your cartridge port to plug-in or swap cartridges? This handy cable is your solution.

The cartridge port on the C64 and C128 is unfortunately located in a somewhat awkward position — horizontally in the back, where it is hard to reach and impossible to see. Many users have installed cartridge expanders, which not only let you switch cartridges easily but also places them vertically for easier access. The cartridge expander, though, takes up a few more inches of table space — no problem for most users, but a drawback for those working in tight quarters. This cable connects to the cartridge port in back of the computer and lets you plug in your cartridge to its other end. Since the cable is flexible, you can locate the cartridge up to 11" away for easier access and more efficient use of table space. Not for use with memory expansion modules.

Disk Doubler Sale $6.95

Double Your Storage By Using The Unused Side Of Your Disks!

DISK DOUBLER. The Commodore 64 uses single-sided disks. As you may have noticed, however, these disks actually have magnetic media on both sides. Even though the back side of a single-sided disk isn't certified, in almost all cases it is identical to the front side in quality and capability. With our Disk Doubler, you can punch a new write-protect notch on the opposite side of the disk and use the "hidden" second side. The Disk Doubler is easy to use — just slide the disk in, squeeze the button, and a perfectly located notch is punched in the disk jacket. No measuring, no guesswork . . . the notch is in exactly the right place each time! This handy device will pay for itself the first few times you use it. Sug. Retail $14.95

SPECIAL OFFER

Sample Issue Only $2.00

(To subscribe, write **Electronic House,** 56477 Elm St., Mishawaka, IN 46545, or call 219-256-2060.)

ELECTRONIC HOUSE is a bimonthly magazine covering smart houses, computerized homes, whole-house audio/video systems, energy management, and much more. "How to" features are included, and "Mr. Module" answers readers' questions about home controls that use existing house wiring to carry their control signals. A one year subscription costs only $14.95 and includes the annual Buyers Guide, a listing of hundreds of home control and related products and where to obtain them.

By special arrangement with **Electronic House,** we purchased a quantity of their back issues and can offer them to you for only $2.00 each. (Sorry, we are not able to take orders for specific issues — at this special price, we choose the issues. Orders for more than one issue will be filled with **different** issues unless otherwise noted.)

Learn about homes of the future that are available today, and how you can use inexpensive components to make your home or apartment smarter, safer, and more efficient.

Notice: Bad Tapes

For years, we have carried high quality tapes for VCR's at very reasonable prices. We have dealt with several manufacturers, and have always insisted on the best quality tape with virtually no "dropouts," which cause white spots or lines on the screen.

Recently, we received in a shipment of tapes from a previously reliable supplier. After we had shipped some of these, we found that a few tapes we tested ourselves were not up to our usual high standards. Although not all tapes were affected, and we did not receive any complaints from our customers, we are concerned that some of the tapes we shipped might not be of Tenex quality.

If you have purchased any tapes from us recently and found their quality to be anything less than excellent, we apologize for any inconvenience and ask that you please call our Customer Service department at 1-800-348-2778. We will make it right, even if the usual return period has expired.

Our Shipping & Return Policy

Your charge card is never billed until your order is shipped! If we must send you partial shipments, your charge card is only billed for the items shipped.

SHIPMENT. Most items are shipped via UPS. Other modes of shipment include Parcel Post and, for certain heavy items, common truck carrier. TENEX maintains an extensive warehouse with over 50,000 items in stock, and automated systems are in place to speed your order to you. Rapid shipment benefits both you and us. Items not in stock may require 2 to 6 weeks.

DAMAGE. We inspect each item before shipment. Please examine your packages carefully when you receive them, and REPORT ANY DAMAGE TO THE CARRIER. No replacement merchandise can be issued unless a damage claim has been filed with the shipper.

RETURNS. Defective products may be returned for replacement within 30 days of receiving them. Items returned for replacement MUST include original packaging materials and any manuals, cables, warranty cards, etc. included in the original package. (For your convenience and protection, do not discard packaging materials or mail in warranty cards until you are certain the product is working properly.) **Please write or call our Customer Service Department for a Return Authorization number prior to returning any items to TENEX.** All returns must be shipped to TENEX freight prepaid. All items are subject to inspection by TENEX prior to issuance of replacement merchandise.

APO, FPO, ALASKAN, HAWAIIAN, CANADIAN. All payment must be in U.S. Dollars. Checks drawn on Canadian or foreign banks cannot be accepted. Canadian Postal Money Orders payable in U.S. funds are acceptable. VISA, Mastercard or American Express are the preferred methods of payment. **APO, FPO, Alaskan, Hawaiian, Canadian, Puerto Rican, Virgin Islands, Guam orders:** add $4.00 to shipping and handling charge to cover postage and insurance cost. Contact us about charges for bulky and/or heavy items. **Foreign orders other than above:** add $8.00 to shipping and handling charge. If ordering large or heavy items, consult desired carrier for estimated freight charges and include with order, or contact us prior to ordering for a freight estimate. If funds included with order are inadequate to cover shipping costs, we will notify you by airmail. Postage or freight and insurance charges will be billed at actual cost on credit card orders.

PRICES. All prices are subject to change without notice. You will be notified of any change at the time of order placement, or prior to shipment on a non-stock item.

SPECIFICATIONS AND PRODUCT AVAILABILITY. Specifications and product availability are subject to change without notice. We have made every effort to be accurate in the specifications and descriptions included in this catalog, but cannot guarantee accuracy or completeness of said specifications and descriptions.

PAYMENT METHODS: For fastest shipment, VISA, MASTERCARD, AMERICAN EXPRESS, a cashier's check, certified check, or money order may be used. Personal checks are also welcome — please allow about 10 extra days for shipment. Purchase orders will be accepted from qualified institutions and firms; please inquire.

IF ORDER FORM HAS ALREADY BEEN USED, please write your order on a plain sheet of paper or order by telephone using our convenient toll-free number. If you send your order on plain paper, be sure you include your name and address, the catalog number of each item ordered, and the appropriate shipping charge. If you would like us to send you additional order forms, please write or telephone us.

WARRANTIES. All of the products offered by TENEX feature a manufacturer's warranty or guarantee. Information about the type or length of coverage of any item is available by calling or writing our Customer Service Department. Generally, warranty service on equipment can be obtained by either shipping or taking the unit to the nearest service location for that manufacturer, along with your receipt and/or other information required by the manufacturer.

If You Have Questions About Your Order . . .

For questions about your order, call (219) 259-7051 between 8 a.m. and 5 p.m. Eastern Standard Time, Monday through Friday. No collect calls, please.

For faster service, provide us with the date of order, your customer number, order number, items in question, how order was placed, and name as it appeared on the order.

Say NO To The Mail Order Tax!

As a mail order consumer, you should be aware that Congress is considering a bill that would **require you to pay sales tax on your out of state mail order purchases.**

This would affect you in two ways. The first and most direct effect on your pocketbook is that **your purchases from out of state mail order firms would cost more.** One of the reasons consumers shop via mail order is to save money — for many consumers, this proposed law would raise their out of pocket cost by as much as 8%, depending on their state sales tax.

The second, and less obvious effect, is that mail order firms' costs would increase due to much greater paperwork requirements; for example, we would have to file **46** sales tax returns instead of our current **one.** And we are one of the fortunate ones — we're fully computerized. Some firms with less advanced order processing systems might be forced out of business.

The legislators who support this bill are presenting it as a tax on out of state firms who are not paying their share of state taxes. While the bill is certainly a burden on out of state firms, **it is really a tax on you the consumer who chooses to shop by mail.**

If you do not want to pay sales tax on items you order from out of state firms, please write your Congressman and Senators today. Unless they know that the voters in their districts care, they will pass this subtle but costly tax.

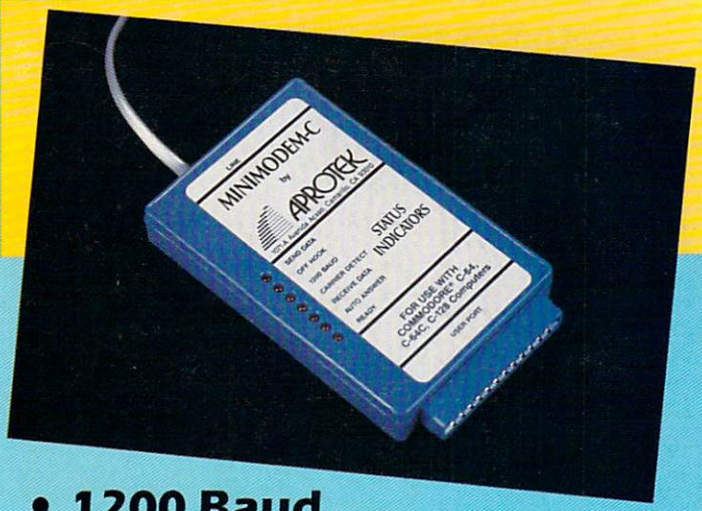
Unbelievable Modem Bargain



NEW $59.95

- 1200 Baud
- Hayes Compatible
- Commodore 1670 Compatible
- Free Multiterm Software

MINIMODEM-C. Who says you can't have it all? Aprotek's Minimodem-C is a Commodore direct-connect modem (no additional interface is needed) that not only fully emulates the Commodore 1670 modem, it also offers 100% Hayes compatibility (not just partial Hayes compatibility like the 1670 or some Avatex models). This allows the Minimodem-C to be used with ALL communications software for the Commodore 64, 64C, and 128, and makes it the best choice for use with a wide variety of services. Other key features include 7 status indicators, Busy Detect, DTR signal support, High Speed Detect Line, and Auto Answer/Auto Dial. Multiterm 64 and 128 software is included with the modem, so you can start communicating as soon as you receive it! Full 1 year warranty.
